

TEXAS DEPARTMENT OF AGRICULTURE

AGRICULTURE PESTICIDE PROGRAM

Convenience Testing for Commercial/Noncommercial Pesticide Applicators

The Texas Department of Agriculture (TDA) has contracted with PSI Services (PSI) to administer exams for agricultural pesticide applicator licensing. This is the same vendor that administers exams for structural pest control licensing. PSI has been providing credentialing and testing services to state and federal agencies, private sector businesses and professional associations for over 65 years.

PSI will provide both excellent quality exam opportunities and a convenient schedule for pesticide applicators to test in 22 locations across the state. The schedule will provide more testing opportunities than previously offered. By outsourcing testing to a third-party vendor, the Department's resources may be used in a more consistent and efficient manner.
